How to Prepare Your Boat for Spring

From Travelers Insurance

“Are you one of the millions of boaters with spring fever, itching to get your vessel out of winter storage and back onto the water? If so, be sure to take the time to properly de-winterize and prepare your boat before taking it out for its first voyage of the season. Having a spring ritual that includes recommended inspection, tune-up and cleaning of your boat before setting out on your first trip can help prevent a host of problems that could keep you off the water later in the season — not to mention, help keep you and everyone aboard safe during your adventures. Following are some tips to help get your boat as ready as you are to hit the water this year.”

Prepare for the Season Ahead

Use some of those pre-season days to plan for brighter days of boating ahead:

1. Take a boat safety course, and obtain your boating certificate (if you have not already)
2. Read your owner's manual and consult the manufacture's recommended maintenance guidelines.
3. Familiarize (or refamiliarize) yourself with your boat-its components, feature and safety precautions.

Tips

Boating Tips and Resolutions for 2019

Keep it Clean

Don't be trashy. Though it may be tempting to simply discard your snack wrappers, plastic bags, cans and bottles overboard, doing so immediately damages the environment and puts the sea life you share waters with at risk. Keep a garbage bag onboard and dispose of your trash responsibly once back ashore.

Make a List and Check it Twice

Lists aren't only for Santa. Making a six-month or quarterly checklist for your boat maintenance can go a long way to ensure smooth sailing all year long.

Be Storm-Ready

Before next hurricane season begins, get your plan in place. Though current meteorology often gives us a little more time to react before landfall, hurricanes are still wildly unpredictable. Having a plan in place to secure your vessel and evacuate will help avoid panic and keep you safe.

Boat Somewhere New

Though we all have our favorite spots, make a resolution to explore new waters. Do some research and stay safe but enjoy a little adventure on your next trip.

Boat More Often

Look, this may sound like a bad excuse to have more fun...and it kind of is. Life is short, and times can be hard, but make sure you save some time to kick back and enjoy this hobby, passion and lifestyle we all love.

We promise all of these resolutions are easier to keep than that all-kale diet or spinning class you just enrolled in. From all of us at Hi-Tide Boat Lifts, may your 2019 be full of fun on the water!
